### **Position summary:**

The core function of the Outreach Case Manager is to provide case management to individuals and families who are homeless or at risk of becoming homeless. Case management is delivered using a team case management model. This work includes providing support to children within families. Typically the role requires that the majority of contact with consumers occurs within their accommodation setting.

Support programs at MOSS utilise a team case management approach, as opposed to a key worker model. In team case management all team members have input into the case plan and ongoing work with the consumer. The aim is to achieve better outcomes for consumers through additional support work, building upon the responses already provided by Access Points as part of the Opening Doors Framework.

The Outreach Case Manager role includes reporting requirements using a computer data base reporting and case management tool, Specialist Homelessness Information Platform (SHIP) for Specialist Homelessness Services (SHS). Consumer file keeping, including electronic case notes is an important task. Workers are expected to participate in and contribute to community development and agency development as part of their role.

The Outreach Case Manager is required at all times to work within the policies and philosophical framework of Merri Outreach Support Service, the guidelines and standards of the funding body and to adhere to the highest professional and ethical standards in performing their duties and responsibilities associated with the position.
